The screenshot shows the HEMS Association website. At the top, there is a navigation menu with links for Home, Basi di elisoccorso, Lo statuto, L'associazione, and Contatti. Below the menu are two photographs: one of a red helicopter in flight and another of a white helicopter on the ground. The main content area features a section titled 'Tipo interventi' with a table showing 147 Avvelenamenti, 61 Hyperth., and 24 Lightning. To the right is a 'Statistica interventi' bar chart showing the number of interventions per month from January to May 2014. Below the chart is a section for 'Corsi HEMS' listing various courses. Further down, there are links for 'BASI MAP', 'SIS118', and 'oersud elicotteri'. The page also includes a 'Presidenta - Angelo Giupponi' section with a brief history of the association.

Tipo interventi	Count
Avvelenamenti	147
Hyperth.	61
Lightning	24

Month	Interventi
Gennaio 2014	~10
Febbraio 2014	~50
Marzo 2014	~170
Aprile 2014	~110
Maggio 2014	~60
